

SAP® HR Support Packs 71-73 Fact Sheet

Overview

This summer SAP released support packs 71, 72, and 73 for the SAP HR (aka HCM) component of ECC6. If you're running the SAP HR modules, you'll need to implement these support packs to ensure your ERP system is compliant with the latest legal changes and that you have the most recent bug fixes. Panaya analyzed thousands of correction notes included in these support packs to provide you with the following charts, showing you the top affected HR modules, top affected countries, and note types. These figures can help you prioritize implementation and testing of these important HR support packs.

About Panaya:

Panaya's software-as-a-service helps companies that use SAP or Oracle reduce 80% of their upgrade and testing risk and effort. Utilizing a cloud-based supercomputer, Panaya simulates the upcoming upgrade, automatically pinpointing which custom programs will break as a result of the upgrade and automatically fixing most of these problems. Panaya's testing solutions dramatically expedite ERP testing and eliminate the need for manual test script maintenance. Seamlessly capturing business knowledge in the background, as users work with the ERP applications, Panaya automatically generates plain-English test scripts that are rapidly executed and continually self-adjust based on test results.
